

How to start a session in G-Cafe Timer?

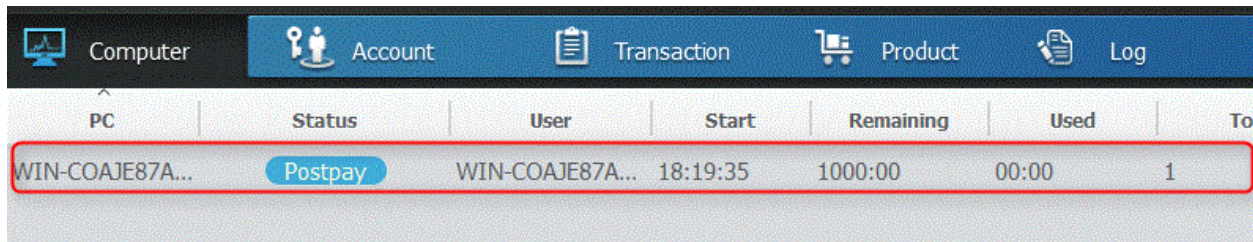

There are 2 ways to start a session on G-Cafe Timer.

1. By using **“Right Click Command”**.

Right click a PC, click **“Login as guest (open time)”** for unlimited session; and click **“Login as guest (limited time)”** for a limited time session.

Login as guest (open time) – For unlimited session, by choosing this option, the client PC will automatically start an unlimited session. This session is a Post-pay (Play before pay).

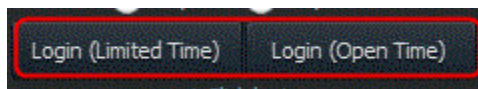

G-CAFE TIMER USER MANUAL FOR PAY NOW / PAY LATER

Login as guest (limited time) – By choosing this option, you need to specify the time that will be used by the customer and select whether “Pay Now” (The customer paid for the session before using the computer) or “Pay Later” (The customer will play or use the computer first before paying the session).

Pay Later (Post-pay) – Play before pay

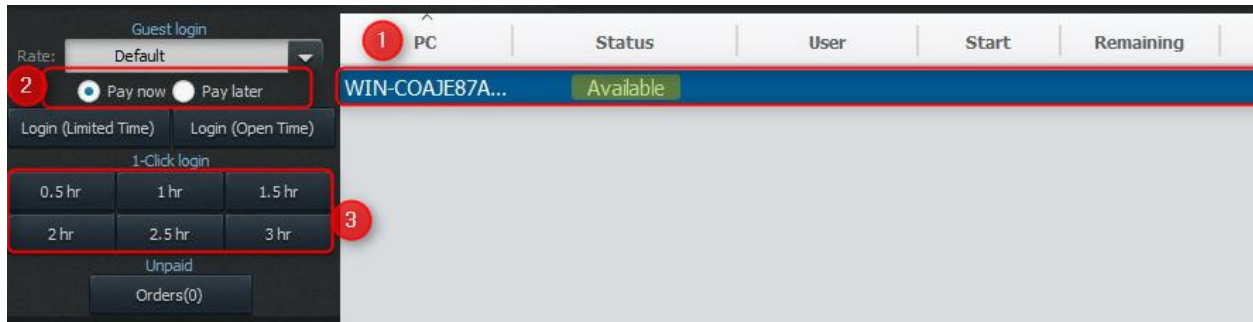

Pay Now (Prepay) – Pay before play

You can also use the 1 click login in the right side of G-Cafe Timer GUI to start a session.

2. By using **“Prepaid Login Shortcut”**.

Select and click 1 PC and select whether “Pay Now” or “Pay Later” then click the specific amount of time using the prepaid login shortcut (1-Click login).

Pay Later (Post-pay) – Play before pay

Pay Now (Prepay) – Pay before play
